

CHANGING LIVES FOUNDATION

A National Heritage Foundation

We are proud to announce our new office location in the North East area. God has been richly blessing us and we know this office will help us further in our mission to help others. We want to:

1. Help change the lives of those who have been the victims of drug and alcohol abuse. We specialize in Meth recovery.
2. Feed the hungry around us by providing emergency food assistance.
3. Provide housing assistance for those in need by obtaining necessary housing.
4. Offer family and youth counseling.
5. Provide youth outreaches and camps for inner city children.

Corey Pritchett, director of Changing Lives, a National Heritage Foundation, has for the last year devoted himself to effecting positive change in the community.
