Subject: RE: latest email

Friday we just wanted to search for our own answers before talking to you. By the term 'trust' I am not saying you guys are not good guys, I mean trust as in we all feel scared and we don't think you have the financial resources to fix it. Simple business decision. Outsource patrolling, let everyone know, other blocks want to join in, when the mayor has a program and funding from Madison or more taxes then have him call me. I own a 1.4 m house and pay gobs of taxes, send my kids to private education. Don't preach to me. You work for me and right now you have to earn your trust and it will not be from lecturing me.
