Please understand that this is the only type of comment I can give you at this time:

I obviously cannot comment on Kyron or the ongoing investigation. However, on behalf of Kyron's family we would like to thank you. The incredible support we have received is overwhelming. To the numerous agencies, search and rescue teams and the community there are no words to express the gratitude we feel. You have worked tirelessly on Kyron's behalf and continue you to do so. At this point the most important thing is to get his picture out there. We encourage everyone if you would like to help this is what you can do. Print out his flyer, put it on the counter of every business you go into. Kyron needs to be seen. Above all do not give up hope, as we certainly never will. He is out there and we are going to find him and bring him home safe where he belongs.
