

*We feel the investigation continues to be on track and is progressing toward finding Kyron. We remain confident in the actions and constant commitment of law enforcement in the mission to find our son. Our goals are to expedite the search for Kyron, to bring him home as quickly as possible and to bring to justice any person responsible for his disappearance. We believe their goals remain the same as ours and are confident that they will bring him home soon. We are still very hopeful that with additional tips each day and their diligent actions that is what will lead us to Kyron.*

*We love you Kyron! Never give up hope, we are all coming to get you and bring you home.*
