Re: Complaint No: 207460098

On November 13, 2009, the Oregon Occupational Safety and Health Division (OR-OSHA) received notice of safety and/or health hazard(s) at SE 77th & Foster Marysville Elementary School, Portland, Oregon. The specific nature of the alleged hazard(s) is as follows:

City employee was exposed to a serious hazard caused by exposure to an active fire and was on the roof of the burning building placing fire hose lines in vent holes. The city employee was not currently trained for the exposures and using self-contained breathing apparatus. Fire Engine Co No.11 @ 92nd & SE Foster was the initial company at the scene.

Person exposed per complainant was City Commissioner Randy Leonard/former fire fighter.

LOCATION: Marysville Elementary School fire incident from 11/10/09

It has not been determined whether the alleged hazard(s) exist at your worksite. No inspection is planned at this time; however we request that you investigate the alleged hazards and make corrections or modifications. Please respond in writing the results of your investigation, no later than five (5) working days from receipt of this letter, indicating appropriate actions taken, corrections made, or that no hazard existed. Please provide supporting documentation, such as applicable measurements, monitoring results, photographs, etc., which you believe would be helpful. We encourage employee participation in investigating and responding to the alleged hazards. It is OR-OSHA's goal to assure hazards are promptly identified and eliminated. If we do not receive a response an inspection will likely be conducted.

If you have any questions concerning this matter, please contact me at (503)229-5910 or FAX (971)673-2901. Your personal support and interest in the safety and health of your employees is appreciated.
